Signatories to the agreements include:

#### Kentucky/Indiana/Illinois Agreement

Illinois Department of Natural Resources  
 Indiana Department of Natural Resources  
 Kentucky Department of Fish and Wildlife Resources  
 Kentucky Coal Association  
 Kentucky Coal Country Association  
 Kentucky Farm Bureau  
 Kentucky Natural Resources and Environmental Cabinet  
 Western Kentucky Coal Association  
 U.S. Department of Interior - U.S. Fish and Wildlife service; Office of Surface Mining reclamation and Enforcement

#### Indiana Coal Mining Agreement

Indiana Coal Council  
 Indiana Department of Natural Resources  
 U.S. Department of Interior - U.S. Fish and Wildlife Service

In Indiana, the Indiana Coal Council agrees to:

- Avoid all mining in six key "core" copperbelly habitat areas totaling about 10,400 acres.
- In habitat outside core areas, modify mining to minimize impact on larger tracts of habitat, maintain travel corridors for the snake, and use reclamation techniques on mined areas that enhance copperbelly habitat. Efforts will be made to provide habitat diversity, including creation or restoration of seasonal and permanent wetlands and buffer areas.

The one thing I want more than any is the two maps that show reclamation with reference lines on it,

something like A-A' and B-B'. Then there was another that showed it in a side profile to demonstrate pre and post elevations. The side profile showed a ridiculous reclamation AOC for the floodplain compared to the existing/original elevation. I think I have everything else on hard copy except one email which I wish I still had from DNR-DFW, oh well. Thanks

Will go through all the stuff, we have on Friday. Also do you have the old hard copies of stuff? Let me know and will work on coping whatever you need.

Did I ever send you a CD with a bunch of the operations and reclamation plan maps that would have been more targeted towards SMCRA?

I am looking for two maps. One was a reclamation overview map that had two reference lines on it, something like A-A' and B-B'. Then there was another that showed it in a side profile to demonstrate pre and post elevations.

I lost these with the computer crash and am hoping to find them again.
